(the « **Company** »)

Luxembourg, 19 October 2026,

NOTICE TO SHAREHOLDERS of the sub-fund Amundi DIVDAX (the “Sub-Fund”)

Dear Shareholders,

The board of directors of the Company (the “**Board**”) hereby informs the shareholders of the Sub-Fund that the index administrator STOXX Limited (the “**Index Administrator**”) has decided to modify the methodology of the “DivDAX Index”, the Sub-Fund’s index (the “**Index**”), and that consequently, the Prospectus and the Key Information Document (the “**KID**”) have been amended (the “**Modifications**”) in order to reflect the latest evolution of the DivDAX Index methodology (the “**Update**”), that is effective since 21 September 2026, as further described in the table below:

Index Description before the Update	Index Description after the Update
Index Description General description of the Index The Index is an equity index representative of 15 large and mid-cap German companies that are part of the German DAX benchmark index and have the highest dividend yield. The dividend yield is calculated by dividing distributed dividends by the closing price of the respective share on the day preceding the ex-date. The Index is a Net Total Return Index: dividends net of tax paid by the index constituents are included in the Index return. Index Composition The index comprises the 15 companies of the German DAX benchmark index with the highest dividend yield. The Index is weighted on the basis of free-float market capitalisation principles, with an upper weighting limit of 10% in relation to each share.	Index Description General description of the Index The Index is an equity index representative of 20 large and mid-cap German companies that are part of the German DAX benchmark index and have the highest dividend yield. The dividend yield is calculated by dividing distributed dividends by the closing price of the respective share on the day preceding the ex-date. The Index is a Net Total Return Index: dividends net of tax paid by the index constituents are included in the Index return. Index Composition The index comprises the 20 companies of the German DAX benchmark index with the highest dividend yield. The Index is weighted on the basis of free-float market capitalisation principles, with an upper weighting limit of 10% in relation to each share.

The Modifications do not represent a change to the investment objective, nor a material change to the investment policy of the Sub-Fund. The other characteristics of the Sub-Fund remain unchanged.

As a consequence of this Update, the Prospectus will be amended accordingly.

The updated Prospectus and KID will be made available by the Management Company upon request and on the following website: www.amundi.com and www.amundiETF.com on or around the date of the next Prospectus.

Yours sincerely,

The Board
